Increased effectiveness

Our Approach

Mobile Messaging Powered by AI:

Intelligent, evidence-based student participation and attendance interventions for onsite, remote, and hybrid learning.

Research-Based Interventions:

Evidence-based strategies incorporating best practices for proven results.

Actionable Insights and Analysis:

Data-driven intervention strategies with actionable insights, reporting and analysis.

Our Solution

Designed for Onsite, Remote and Hybrid Learning

Complete all-in-one attendance intervention management solution integrates with the SIS, unifies screen assessments, identifies and manages the root causes of student absenteeism bringing it all into one central place and empowers schools and districts to be more efficient and effective, knowing what is working and what is not working at the school and district level.

AI Chatbot – Virtual Attendance Coach

Highly Personalized

Interactive

How AllHere Works

1

Schools securely share student and family information, including cell phone numbers.

2

Your Bot sends its first text introducing itself and asking families (grades K-12) and/or students (grades 9-12) for permission to message them helpful reminders.

3

All families, and students who opt in, receive a well-being survey. Based on their responses, your Bot sends research-based “nudges” that help them stay motivated & engaged, complete coursework, and curb absenteeism this fall.

4

You receive a custom AllHere “Pulse” report based on how your families and students answer questions, with monthly updates throughout the fall.

FAQs

- ✓ **How long does the subscription run?** The subscription runs for one year.
- ✓ **How do I upload my family or student contact information, and attendance information?** Through a secure file transfer protocol (SFTP) integration from your SIS of record or through a secure CSV upload.
- ✓ **Where does the data go and who owns it?** AllHere is a data fiduciary and fully FERPA compliant. Data will be used to send text messages to students and families. AllHere does not share or sell any student-level data, any reporting is done in aggregate and/or anonymized.

Service and Support

We centered our support system around applying the methodology in a way that can be easily understood and bring you to the root cause of chronic absenteeism.

Our services, grounded in extensive research, provide comprehensive support to improve attendance and reduce chronic absenteeism. AllHere's services speak to and intend to close the evidence gap in attendance intervention efforts.
